SUMMARY

MERN Full Stack Developer with hands-on experience in **MongoDB, Express.js, React, and Node.js.** Built responsive and real-time web applications, delivering production-ready solutions for business and interactive platforms. Focused on performance, scalability, and user experience, with a solid understanding of REST APIs, backend architecture, and modern web development practices.

PROJECTS

- SimplyExim – Export/Import Company Website | SimplyExim

- Developed a **responsive business website** for an export-import company using **React.js, focusing on clean layout and professional UI**
- Designed reusable components for services, product listings, and company information pages
- Implemented smooth navigation and routing using React Router for better user experience
- Optimized layout for mobile and desktop devices to ensure consistent responsiveness
- Deployed the website on Vercel for fast performance and global accessibility

- Real-Time Video Chat Platform | GitHub

- Developed a full-stack random video chat web application using React, TypeScript, Node.js, and WebRTC for peer-to-peer communication
- Implemented **WebRTC** for real-time peer-to-peer video/audio streaming with minimal latency
- Built **Socket.IO** matchmaking system to pair random users and manage connection lifecycle
- Integrated **NSFW.js machine learning model** for automated content moderation, detecting and blocking inappropriate content in real-time
- Created real-time bidirectional chat system alongside video communication

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React
Backend: Node.js, Express.js
Database: MongoDB
Programming Languages: JavaScript, TypeScript, Python, C++
Tools & Platforms: Git, GitHub, Docker, Vercel, Linux/Unix

EDUCATION

Khatima Institute of Technology & Management **July 2023 - July 2026**
Bachelor's of science in information technology
